

Your Own Christmas Stocking

Christmas is almost here, and a huge part of Christmas decorating is hanging the stockings. Want a last minute gift idea that will be sure to catch Santa's eye? This DIY project will show you how to make your very own unique stocking.

What you will need

- Sewing machine
- Pins
- Thread
- Hand sewing needles
- Fabric
- Beads/buttons
- Glue

Cutting

- Stocking
- Flower

Seam allowance- 3/8"

Construction

Step 1: Stocking

- First, with the good sides facing together stitch both the layers together, except for the top side
- Turn right side out
- Fold the good side of the top of the stocking (which you didn't sew) in by one inch and sew it around

Step 2: Flowers – you can make as many flowers as you want, in as many colours as you like, or you can even use buttons or beads to make it even more unique!

- Use any flower template that you like. If you want, choose the one that we have here
- Cut out the flower template on your fabric
- After cutting, hand sew the flowers onto your stocking
- Glue your beads, or hand sew your buttons onto the middle of the flower

Step 3: Hanger

- Lastly cut a short, thin, rectangular piece of fabric and sew it onto the edge of your stocking so that you can hang it up

Voila! You just made your fabulous stocking!
